- International Loss Adjusting
 - On site presence
 - Mitigation
 - Loss Assessment
 - Root cause analysis
 - Defense or Recovery
 - Loss Prevention

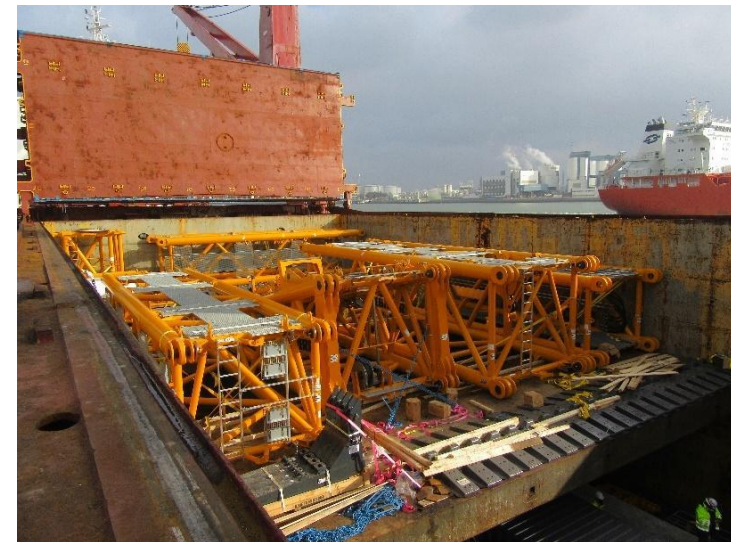

Lercari

SINCE 1879

MARINE

Case Study 1: wetting

- Cargo: crawler crane
 - Value: 25.000.000 Euro
 - Lease: 250.000 Euro p/m
- Vessel: general cargo
 - 20.000 usd p/d

Lercari

SINCE 1879

MARINE

Case Study 1: wetting

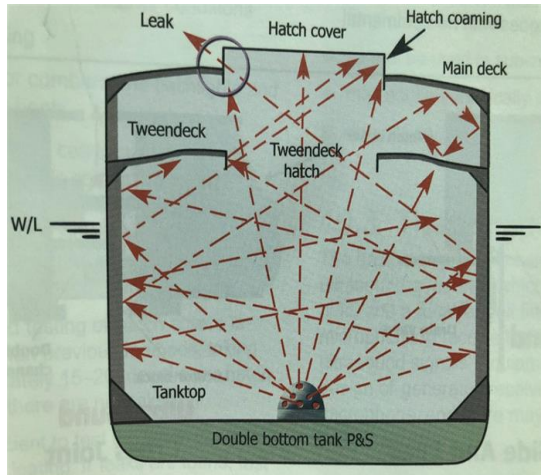

Case Study 1: wetting

Lessons learned:

- Time pressure
- Weathertightness
- Pre loading survey

Case Study 2: Containers overboard

- Lack of cargo to survey
- Causes: cargo surveyors are generally not given access to the vessel to inspect the equipment that has failed and to obtain copies of stowage plans, passage plans and log book entries...
 - Stowage errors by the carrier;
 - Stowage errors by the shipper;
 - Defective equipment i.e. an unseaworthy vessel;
 - Interaction between the ship and sea conditions; and
 - Extreme weather
- Cargo Claim & Recovery

Lercari

SINCE 1879

MARINE

Case Study 3: Shifted cargo

- Shipper's liability
- Cargo claims
- Third party claims (including the vessel)

Lercari

SINCE 1879

MARINE

Conclusions

- All Risks
- Uninsured cargo
- Accumulation of risks
- Too fast, too risky
